

# Hale Pohaku Meal Service Definitions:

4/01/09

**Resident:** Individual paying the full Hale Pohaku Overnight Rate.

**Resident Meals:** All meals consumed from Dinner on the check-in night through Lunch on the check-out day. When signing in at the service line, the "resident" column should be checked. Meals taken before the check-in dinner and after the check-out lunch are considered extra meals and should be signed in by checking the "meal-only" column.

Between the first meal and last meal, all food consumed is included in the overnight room rate. This includes the prepared meal services, Breakfast, Lunch, Dinner, and Night Lunch. It also includes drinks and snacks from the HP "open shelves".

**Non-Resident Meals:** Any Hale Pohaku food or drink items taken by non-residents. The non-resident can purchase any of the prepared meals or obtain self-serve items. The observatory office should reserve prepared meals for their staff. They are signed in by checking the "meal-only" column at the service line meal form. If the non-resident obtains self-serve items, they need to sign for them on the "HP non-resident" sign-in sheet located on the small table on the West side of the dining area.
